

Opportunities for Impact

Since 2006, IHT has created 210 permanently affordable rental and ownership homes for year-round working Island families. Our 2030 Strategic Plan calls for an additional 200 permanently affordable year-round homes. We're on track to achieving our goal with 100 homes in construction and pre-development over the next two years.

Our goal is to raise \$20 million in private donations over the next five years to leverage \$80 million in competitive town and state funding to complete these additional 200 homes.

Social impact investments are critical for our project financing. Private investors enter into 5-year Make It Happen Fund (MIHF) lines of credit to provide short-term financing for acquisition and construction and 10-year MV Future Financing (MVFF) to mortgage our rental properties. To complete the 100 homes that are in construction and predevelopment, we must raise \$3.1 million in MIHF five-year lines of credit and \$6.1 million in MVFF 10-year participation loans from private investors.
